

## PRODUCT INFORMATION

# oilfino Via Eco P 0W-30

## DESCRIPTION

**oilfino Via Eco P 0W-30** is a synthetic low SAPS smooth-running engine oil for petrol and diesel engines in passenger cars. It is particularly suitable for state-of-the-art diesel engines with particle filters. It is characterised by excellent cold-start features, minimising fuel consumption, friction and wear. oilfino Via Eco P 0W-30 ensures measurable fuel savings and the reduction of emissions through a reduced HTHS viscosity. It contributes to the protection of the environment. Extended oil change intervals according to manufacturer's instructions.

## PROPERTIES

The oilfino Via Eco P 0W-30 is a synthetic smooth-running engine oil specially developed for diesel engines with particle filters. However, it can also be used in gasoline and diesel engines in passenger cars and transporters with and without turbochargers. The oil offers a variety of benefits, including excellent cold start properties that are guaranteed even at low temperatures below -30°C. It ensures that the function of the hydraulic tappets is maintained at all temperatures and enables fuel savings in all operating states. The oil forms a safe lubricating film at high operating temperatures and is neutral to sealing materials. It offers comprehensive protection against wear, corrosion and foaming. Due to its low evaporation tendency, oil consumption is reduced. In addition, the oil allows for extended oil change intervals, which protects natural resources. It also has the advantage of reduced sulphated ash, phosphorus and sulphur, which is referred to as low SAPS.

## SPECIFICATIONS

- ACEA C2

## RECOMMENDATION

- PSA B71 2312
- FIAT 9.55535-DS1
- FIAT 9.55535-GS1
- IVECO 18-1811 Classe SC1 LV

Specific data	Method	Unit	oilfino Via Eco P 0W-30
Density at 15 °C		kg/l	843
Viscosity at 40°C		mm <sup>2</sup> /s	53.9
Viscosity at 100°C		mm <sup>2</sup> /s	10.0
Viscosity index			175
Flow point		°C	-51
