

PRODUCT INFORMATION

oilfino Via Ultra Prosap C4 5W-30

DESCRIPTION

oilfino Via Ultra Prosap C4 is a synthetic high-performance smooth-running engine oil for modern passenger car engines of the latest generation. Specially designed to save fuel in partial and full load operation and to reduce emissions.

PROPERTIES

This universal, fuel-saving low SAPS engine oil is excellently suitable for petrol and diesel engines with and without turbochargers in passenger cars and transporters, with extended oil exchange intervals. Due to its special composition, this product is ideally suited for use in automobiles for which Renault specification RN0720 is prescribed and which are equipped with modern three-way catalytic converters and diesel particulate filters. The low SAPS content of this engine oil contributes to extending the service life of the particle filter in diesel engines. Thanks to the latest additive technology, it ensures a safe lubricating film at high operating temperatures and highest loads as well as very good wear and corrosion protection.
