

## PRODUCT INFORMATION

# oilfino Chain Oil Bio Plus

## DESCRIPTION

**oilfino Chain Oil Bio Plus** is an organic chain oil that is used to lubricate all portable chainsaws and frame saws. The exceptionally good adhesion and excellent creep properties, which ensure that the oil gets to all necessary lubrication points, make oilfino Chain Oil Bio Plus an excellent chain adhesive oil.

## PROPERTIES

The oilfino Chain Oil Bio Plus is a biodegradable oil that is produced on the basis of renewable raw materials. It is characterised by excellent adhesion and has good creep behaviour, which means that it penetrates well into the chain links even at narrow points. In addition, it only hardens slightly – even with longer storage times.

**WARNING** Saw chain oils are not suitable for engine lubrication (admixture with fuel).

Specific data	Method	Unit	oilfino Chain Oil Bio Plus
Density at 15°C		Kg/m <sup>3</sup>	930
Kinematic viscosity at 40 °C		mm <sup>2</sup> /s	100
Kinematic viscosity at 100 °C		mm <sup>2</sup> /s	11
Viscosity index			165
Flash point	DIN 51376	°C	190
Pour point	DIN 51597	°C	-21
Colour count			L 3.0
Neutralisation number		mg KOH/g	0.98
Copper corrosion	DIN 51759, 100° C, 3 St.		1
Corrosion compared to steel	DIN 51585, A & B		Pass
Biodegradability	gem. CEC-L-33-A		> 80%
