

oilfino Varius G 750 75W-90

DESCRIPTION

oilfino Varius G 750 is a synthetic universal transmission oil for highly loaded manual transmissions and drive axles with a smooth-running character for use in commercial vehicles and passenger cars under the highest mechanical and thermal stress. By using synthetic base oils and additives tailored to them, today's practical requirements are significantly exceeded. This 'Total Drive Line' gear oil is ideally suited for universal use in workshops and offers a wide range of applications.

PROPERTIES

oilfino Varius G 750 offers excellent wear protection and excellent oxidation and temperature stability even under extreme operation and the toughest conditions. The selected base oils with matching additive technology guarantee very good afterflow behaviour at low temperatures and high lubrication safety at high operating temperatures. By adding special EP additives, Varius G 750 protects against wear and prevents corrosion and foaming in the transmission.
